

Ph.D. Requirements Checklist

Department of Computer Science

Before the Ph.D. committee can be formed and approved by the DGS, the student below must have met the following degree requirements of the Department and the Graduate School.

Student Name: _____ EMPLID: _____

CS REQUIREMENTS:

Breadth Requirement: (Quals Pass received in 4 of the 6 areas listed below)
--

Algorithms (230) _____:____(____) **-or-** Complexity (240) _____:____(____)

Operating Systems (210) _____:____(____) **-or-** Architecture (220) _____:____(____)

Artificial Intelligence (270 or 271) _____:____(____)

Numerical Analysis (250) _____:____(____)

Research Requirement: 2nd Year Research Project

Supervising Professor: _____

Research Project Committee (3 members) _____

Date Project Proposal Presentation Accepted: _____

Project Progress Presentation Accepted: _____

Final Research Project Accepted: _____

Title: _____

Coursework:

4 >=200-level regular Computer Science courses beyond the Breadth Requirement:

Specify Research Area: _____

(in area) _____:____ _____:____

(other) _____:____ _____:____

2 related courses from a department outside Computer Science _____:____

_____:

CPS 300 participation during term: _____

GRADUATE SCHOOL REQUIREMENTS:

Payment of the equivalent of 6 semesters of full-time tuition _____ through _____

One year residency requirement _____

Responsible Conduct in Research Training (12 hours) .

Orientation Workshop (6 hrs): _____

Forum (2 hrs): _____

Forum (2 hrs): _____

Forum (2 hrs): _____

Preliminary Examination Passed on: _____

Dissertation and PhD examination on: _____

Title: _____

Committee: _____

Graduation Date: _____

The above student fulfills the degree requirements of the Department and the Graduate School for the Ph.D. degree

Director of Graduate Studies
